API and SDK Documentation

Version: 1.0.0

No description provided (generated by Swagger Codegen https://github.com/swagger-api/swagger-codegen)

Default

affiliatesCampaignsAssetsList

Get campaign assets.

GET

/affiliates/campaigns/{campaign_id}/assets/

Usage and SDK Samples

Curl	Java	Android	Obj-C	JavaScript	C#	PHP	Perl	Python

curl -X GET "https://localhost/affiliates/campaigns/{campaign_id}/assets/?key=&format="

Parameters

Path parameters

Name	Description
campaign_id*	UUID (uuid) Required

Query parameters

Name	Description
key*	UUID (uuid) *Affiliate API key* Required
format	String *The string "zip"*

Responses

Status: 200 - Successful response.

Status: 403 - Unauthorized

affiliatesCampaignsCreativesAssetsList

Get campaign creatives asset list.

GET

/affiliates/campaigns/{campaign_id}/creatives/{creative_id}/assets

Usage and SDK Samples

Curl   Java   Android   Obj-C   JavaScript   C#   PHP   Perl   Python

```
curl -X GET "https://localhost/affiliates/campaigns/{campaign_id}/creatives/{creative_id}/assets?key="
```

Parameters

Path parameters

Name	Description
campaign_id*	UUID (uuid) Required
creative_id*	UUID (uuid) Required

Query parameters

Name	Description
key*	UUID (uuid) *Affiliate API key* Required

Responses

Status: 200 - Successful response.

Schema

```
▼ { []
    status: string
    total:  integer
    data:   ▼ { []
            id:     string (uuid)
            name:   string
            size:   string
            type:   string
                    Enum:   email , image
            width:  string
            height: string
            status: string
                    Enum:   active , inactive
        }
  }
```

Status: 403 - Unauthorized

affiliatesCampaignsCreativesAssetsRead

Get campaign creatives asset preview.

GET

```
/affiliates/campaigns/{campaign_id}/creatives/{creative_id}/assets/{asset_id}
```

Usage and SDK Samples

Curl   Java   Android   Obj-C   JavaScript   C#   PHP   Perl   Python

```
curl -X GET "https://localhost/affiliates/campaigns/{campaign_id}/creatives/{creative_id}/assets/{asset_id}?key=&preview="
```

Parameters

Path parameters

Name	Description
campaign_id*	UUID (uuid) Required
creative_id*	UUID (uuid) Required
asset_id*	UUID (uuid) Required

Query parameters

Name	Description
key*	UUID (uuid) *Affiliate API key* Required
preview*	String *The string "true"* Required

Responses

Status: 200 - Successful response.

Status: 403 - Unauthorized

affiliatesCampaignsCreativesList

Get campaign creatives list.

GET

```
/affiliates/campaigns/{campaign_id}/creatives
```

Usage and SDK Samples

Curl   Java   Android   Obj-C   JavaScript   C#   PHP   Perl   Python

```
curl -X GET "https://localhost/affiliates/campaigns/{campaign_id}/creatives?key="
```

Parameters

Path parameters

Name	Description
campaign_id*	UUID (uuid) Required

Query parameters

Name	Description

key*	UUID (uuid)
	Affiliate API key
	Required

Responses

Status: 200 - Successful response.

```
Schema
